- English certificate equivalent to IELTS 6.0

KNOWLEDGE

- Understanding about OOP, Dependency Injection
- Understanding software design, database design, RestfulAPI, ...
- Good time management, presentation and teamwork skills
- Ability to listen and understand customer requirements
- Have basic knowledge about Android programming (Activity, Views, Layouts, Intent, Services, BroadcastReceiver, ...)

EDUCATION

FPT UNIVERSITY (Oct 2016 > now)

Major: Software Engineering

GPA: 7.1

PROJECTS

* All projects can be found on Github (description, screenshot, demo, ...)

Project name: Phong-kham-158-SpringBoot Github	
Customer	Family's obstetrics and gynecology clinic
Description	Project was created for the purpose of managing the family's obstetrics and gynecology clinic The software helps create ultrasound results reports and prints that, manage and search for old reports, detect fraud in work
Time	All time
Responsibilities	Meeting with customer and get clear requirement Design and develop the system Deploy system to server Maintain and fix bug project
Accomplishments	Learned SpringBoot Frameworks, learned how to deploy project to Heroku server, improve customer communication skills
Technologies	SpringBoot, Spring Data JPA, Thymeleaf, Bootstrap 4, JQuery, Postgres, Docker

Project name: GPS_Tracking_System Github	
Description	System to monitor the status and position of the phone
Time	2 weeks
Responsibilities	Design and develop the system Deploy system to server Maintain and fix bug project
Accomplishments	Learned SpringBoot WebSocket, using Json Web Token Authentication, learned how to create Android software and basic knowledge of Android
Technologies	SpringBoot, Spring WebSocket, Winform, Android, Postgres, Docker

Project name: SimpleChatWeb Github	
Description	Project for subject ".NET and C# (PRN292)". Simple Web Chat, user can register, login, add friend, and chat, ...
Time	2 months
Team size	3
Position	Team leader
Responsibilities	Meeting with teammates to get clear requirement Design and develop the system Testing Presentation, description project
Accomplishments	Learned new Microsoft technologies and frameworks. Improved teamwork and communication skills
Technologies	ASP.NET MVC / Entity Frameworks / SignalR / Bootstrap 4 / JQuery

Project name: SimpleSellingWeb  Github	
Description	Project for subject “Web-Based Java Applications (PRJ321)”. Simple selling web, user can create account, see products, put it in the cart and place an order and manage orders and account Manager can manage products on website, users and orders
Time	1 month
Responsibilities	Design and develop the system Presentation, description project
Accomplishments	Learned Java Servlet, Java Server Pages (JSP), learned how to Session and Cookie work and Http protocol
Technologies	Java Servlet, Java Server Pages (JSP), MS SqlServer

Project name: PictureViewer  Github	
Customer	Family’s obstetrics and gynecology clinic
Description	Simple image viewer help Phong kham 158. Help to crop image cropping according to available coordinates and print it
Time	1 weeks
Responsibilities	Design and develop the system Explain and guide customers how to use
Accomplishments	Learn how to build a c # winform project
Technologies	Winform

Project name: Auto Connect Wifi FPT Dormitory  Java Swing  Android	
Description	A tool help to automatically connect and login to FPT Dormitory
Time	3 weeks
Responsibilities	Design and develop the application
Accomplishments	Learned Java Swing, Basic Android, Http protocol
Technologies	Java Swing, Android

Project name: Download-MP3-From-Youtube  Github	
Description	An application to download music from youtube using youtube-dl
Time	1 weeks
Responsibilities	Design and develop the application
Accomplishments	Learned Java Swing, using java to call windows command line, using youtube-dl
Technologies	Java Swing
